

MediCare Pharmacy

Standard Operating Procedure (SOP)

Document ID: MCP-SOP-001

Version: 1.0

Effective Date: January 1, 2026

Department: Pharmacy Operations

Approved By: Operations Manager

1. Company Overview

MediCare Pharmacy is committed to providing safe, accurate, and timely pharmaceutical services while ensuring compliance with healthcare regulations and industry best practices. This Standard Operating Procedure (SOP) establishes the operational guidelines for handling customer orders, prescription verification, medicine dispensing, packaging, delivery, and customer support.

The primary objective of this SOP is to ensure that every customer receives the correct medication in optimal condition while maintaining high standards of patient safety, data privacy, and service quality.

2. Scope

This SOP applies to all pharmacy employees, including:

- Customer Support Representatives
- Licensed Pharmacists
- Pharmacy Assistants
- Warehouse Personnel
- Packing Staff
- Delivery Coordinators
- Quality Assurance Officers

Every employee is responsible for understanding and following the procedures outlined in this document.

3. Order Confirmation Process

All customer orders must undergo an initial verification before processing.

Standard Procedure

1. Receive the customer order through the website, mobile application, or telephone.
2. Verify customer details, including:
 - Full Name
 - Registered Phone Number
 - Delivery Address
3. Confirm medicine availability in inventory.

4. Check whether the medicine requires a valid prescription.
5. Generate a unique order identification number.
6. Send an order confirmation notification to the customer via SMS or email.

Orders containing missing information or invalid prescriptions must be placed on hold until verification is completed.

4. Customer Verification

Before dispensing medicines, staff must verify the customer's identity using at least two identifiers:

- Full Name
- Phone Number
- Order ID
- Registered Address

For prescription-only medicines, the prescription must belong to the verified customer or an authorized family member.

5. Staff Responsibilities

Customer Support

- Receive customer inquiries.
- Confirm orders.
- Escalate medical questions to licensed pharmacists.
- Record customer complaints.

Pharmacist

- Review prescriptions.
- Approve prescription medicines.
- Identify potential drug interactions.
- Provide medication counseling when required.

Packing Staff

- Verify medicine name and quantity.
- Inspect packaging integrity.
- Ensure expiry dates meet company standards.
- Seal packages securely before dispatch.

Delivery Team

- Deliver medicines within the committed delivery window.
- Maintain proper handling conditions during transportation.
- Obtain delivery confirmation from the customer.

6. Quality Assurance Checklist

Before any order leaves the pharmacy, the following checklist must be completed:

Item	Status
------	--------

-----	-----
-------	-------

Correct medicine selected	☐
---------------------------	--------------------------

Correct strength verified	☐
---------------------------	--------------------------

Correct quantity packed	☐
-------------------------	--------------------------

Expiry date checked	☐
---------------------	--------------------------

Packaging intact	☐
------------------	--------------------------

Prescription verified (if applicable)	☐
---------------------------------------	--------------------------

Cold-chain requirements maintained	☐
------------------------------------	--------------------------

Customer details verified	☐
---------------------------	--------------------------

Orders that fail any quality check must be returned to the pharmacist for review before dispatch.
